BALTIMORE, May 8. - Sebastian Martinelli, titular Archbishop of Ephesus and Cardinal-elect of the Church of tinelli arose, and, escorted by the mem-Rome, today received at the hands of Cardinal Gibbons the red berretta and donned the robes, which will hereafter mark his rank. The ceremony, which is the second step in his elevation to his new position, was marked by all the pomp and brilliance usually attendant upon such occasions. It was held in the venerable cathedral, the first edifice of its kind erected upon American soil and in which the first American priest and the first American Bishop were ordained. Among those who witnessed it were men and women prom-inent in every walk of life, diplomats, legislators, educators, journalists and ecclesiasts, the latter including half a score of Archbishops, half a hundred Bishops, priests, monks and seminar-

Marchetti said: obedience overcame his humility and brought him unwilling to this sublime dignity, of which I will say nothing at present, as another more worthy than I will more clearly and more gracefully Cardinal Gibbons responded in part

Less than five years ago you came among us an entire stranger. You will leave us bound by the hallowed ties of friendship and without a single enemy to sound a discordant note in the universal jubilee of praise and congratu-lation. Your mission to the United States has been a mission of peace. While living among us you have taken as your model the Prince of Peace him-self, of whom it is written "he shall not contend nor cry out, neither shall his voice be heard in the streets. The bruised reed he shall not break, the smoking flax he shall not extinguish." You have fulfilled your onerous duties more effectively, without noise or ostentation. In discharging your mission as apostolic delegate your eminence has been actuated by a high sense of justice, by a justice tempered with

Your eminence will be able to inform his holiness that in no country in the Christian world can be found a hierarchy, or clergy, or people more loyal and more devoted to the sovereign pontiff, more tenacious of 'the faith once delivered to the saints,' more zealous in extending the kingdom of Christ than the bishops and priests and laity of the United States.

Cardinal Gibbons descended from his throne and advanced to the front of the altar, accompanied by his attendants, bearing the berretta. Mgr. Marbers of the noble guard and the papal chamberlains, walked toward Cardinal Gibbons, before whom he knelt and four, the Government leader in the bowed his head. Slowly lifting the House of Commons and nephew of Salberretta from the silver salver upon which it rested, Cardinai Gibbons unfolded it and held it high in order that the congregation might see it. Then, stooping, and with what seemed to be a softly murmured prayer, he placed it upon the head of the Cardinal-elect, who arose, and, advancing to the front of the altar, paid a strong personal tribute to Cardinal Gibbons. He then conducted mass amid the breathless attention of the vast audience. sermon was delivered by Archbishop Ryan of Philadelphia, after which Cardinal Gibbons pronounced the benediction and the ceremony was ended.

SALISBURY IN CRITICAL STATE

Alarm Felt Over the British Prime Minister's Failing Powers.

NEW YORK, May 8 .- A cable to the World from London says: Alarming reports about Lord Salisbury's condition are prevalent tonight. A. J. Balisbury, had a private audience with the King today, which is understood to have been caused by the Prime Minister's failing health. There has been complete silence on the subject for three weeks, the only indication that he was not recovering being afforded by the postponing of his return from Beaulieu. He was to have been in London today, but he has not yet left his Riviera residence. An attack of influenza before Easter left him extremely enfeebled, and the news from Beau-lieu received in London today shows that his debility is obtinately resisting all treatment and has now reached a grave point.

The World correspondent today asked Lord Hugh Cecil, a member of Parliament, one of Lord Salisbury's sons, if it is true that the Premier is seriously ill. He replied: "I know of no ground for such a statement."

The possibility of Lord Salisbury's retirement has been freely canvassed in political circles. His death would not discalar the Misiatry but would be the statement.

Only a few weeks ago the same court decided that it had no jurisdiction over Hawallan cases of this nature, but the United States Supreme Court reversed this decision and sent it back to San Francisco for hearing.
